Subject: ZMOTION Bundled Packaging Option Discontinuance

Dear Valued Customer:

This is to inform you that Zilog will no longer offer the packaging option that combines the ZMOTION MCU, pyroelectric sensor, and/or lens into one bundle. A list of the bundled part numbers that will be discontinued as well as the corresponding individual replacement parts can be found in the matrix on the next page.

Limited inventory of the bundled parts are still available for Last Time Buy.

All of the ZMOTION MCU's, lenses, and pyroelectric sensor components are still available for individual component purchase. There are no changes to the form, fit, or function of the components.

Should you have questions regarding this matter or need additional assistance, please contact zservice@zilog.com.

Thank you for your continued interest in Zilog products and services.

Sincerely,

Sonia Daley
sdaley@zilog.com
Director of Quality and Reliability
Zilog-an IXYS Company
