General ordering data

Туре	CH 5.08/02/90 3.9SN GN BX		
Order No.	<u>2649090000</u>		
GTIN (EAN)	4050118637885		
Qty.	500 pc(s).		
Product data	IEC: 630 V / 15 A		
	UL: 300 V / 15 A		
Packaging	Вох

Double Wave:

Single Wave:

Wave soldering profiles

Wired connection elements should be processed in accordance with the DIN EN 61760-1 standard. We have included two recommendations for practical wave soldering profiles, with which Weidmüller PCB terminals and connectors are qualified.

When choosing a suitable profile for your application, the following factors also need to be considered:

- PCB thickness
- Proportion of Cu in the layers
- Single/double-sided assembly
- Product range
- Heating and cooling rates

The single and double wave profiles each indicate the recommended operating range, including the maximum soldering temperature of 260°C. In practice, the maximum soldering temperature is quite often well below the above maximum profile.
