

CHANGE NOTIFICATION

Linear Technology Corporation
1630 McCarthy Blvd., Milpitas, CA 95035-7417
(408) 432-1900

December 17, 2015

Dear Sir/Madam:

PCN# 121715

Subject: Notification of Change to LTC2480, LTC2482, LTC2484, LTC2485 Die

Please be advised that Linear Technology Corporation has made a minor change to the LTC2480, LTC2482, LTC2484, and LTC2485 die in order to improve device manufacturability.

The die change tightens the Tconv distribution over the supply voltage range and over the operational temperature range. No other functional or parametric specifications are affected. The change was qualified by performing characterization over the full operating temperature range and rigorous engineering evaluation across a broad range of application conditions. In addition, the revised die has passed 1000 hours High Temperature Operating Life stress. Product built using the new die will be available for shipment with a datecode of approximately 1609.

Should you have any further questions or concerns please contact your local Linear Technology Sales person or you may contact me at 408-432-1900 ext. 2077, or by e-mail at JASON.HU@LINEAR.COM. If I do not hear from you by February 17, 2016, we will consider this change to be approved by your company.

Sincerely,

Jason Hu
Quality Assurance Engineer
